

Latvia has been a good experience for me in every way. The people with their supportive approach, our teachers at the College of Law and the quiet life in the city created the peace I wanted.

*Erasmus+* is a good experience by itself, but this experience has become even better because of the teachers of our school. I would like to thank them for everything. Thanks to our school for keeping in touch despite the closure and thanks for organizing occasional tours.

Latvia is a calm and peaceful place as are the surrounding countries as well.
